

**Indications:**

- Healthy senior dogs

**Contraindications:**

- Growth
- Pregnancy, lactation

**Nutritional Differences:****High Digestibility:**

Highly digestible ingredients ensure optimal nutrient supply for mature dogs

**Moderate Phosphorus:**

Moderate phosphorus content to help promote kidney health

**Additional Differences:**

- Controlled levels of high quality, highly digestible protein
- Enriched with antioxidants to help maintain a healthy immune system and to reduce DNA damage associated with aging
- Enriched with long chain omega-3 fatty acids eicosapentaenoic acid and docosahexaenoic acid (EPA and DHA) to help modulate inflammatory reactions
- Enhanced with glucosamine and chondroitin to help promote joint health
- Naturally preserved to ensure freshness and quality

**Notes:**

- MATURE can diet is an excellent choice for senior dogs that have a hard time eating kibble
- Additionally, MATURE is great for singular or concurrent use with the dry formula to help stimulate the palate of older dogs that have diminished senses of smell and taste over time
